Pharmacists at the Crossroads: Integrating Chinese Medicine into Hong Kong's Healthcare Landscape

INTRODUCTION

On 18 December, 2025, the Government of the Hong Kong Special Administrative Region unveiled the Chinese Medicine Development Blueprint, marking a pivotal step toward the integration of Chinese medicine into the mainstream healthcare system.

As this transformation unfolds, pharmacists are poised to play an increasingly vital role in bridging conventional and traditional practices. This webinar will delve into the expanding responsibilities of pharmacists within this integrative framework, highlighting their contributions to patient care, public health, and the broader development of integrative medicine in Hong Kong.
