Day 1

20th August 2025, Wednesday

Day 2

21st August 2025, Thursday

Day 3

22nd August 2025, Friday

Time	Programme
0830 - 0900	Registration
0900 - 1120	Plenary 3: Translating HTA into Impactful Results: Value-Based Healthcare The session discusses how HTA helps to achieve value-based healthcare (VBHC), showcasing the importance of implementation strategies to drive adoption of cost-effective health technologies, and measurement systems to understand the impact of HTA on health outcomes and healthcare systems. International health economics outcomes research, translation of evidence to policy guidelines at a national level, the role of price volume agreements and risk sharing agreements in VBHC, and perspectives on the practical application of VBHC towards tangible measurable outcomes will be discussed.

Moderator**Dr. Huang Li-Ying (Grace)***Director**Division of Health
Technology
Assessment
Center for Drug
Evaluation,
Taiwan***Panelists****Dr. Joanne Yoong***ISPOR VBHC Task Force**Chief Executive Officer, Research for Impact***Topic: VHBC Through The Lens Of Health Economics Outcomes Research (HEOR)****Dr. Kavitha Rajsekar***Senior Scientist, Department of Health Research
Ministry of Health and Family Welfare,
Government of India***Topic: Translation of HTA Evidence Into Policy Guidelines For Cost Saving At a National Level in India****Ms. Lin Liang***Head**Agency for Care Effectiveness
Ministry of Health, Singapore***Topic: Role And Use of HTA In Implementing Value-Based Healthcare: The Singapore Story****Dr. Yot Teerawattananon***Secretary General**Health Intervention and Technology Assessment
Program (HITAP)
Ministry of Public Health, Thailand***Dr. Wija Oortwijn***Senior Lecturer*

Radboud University Medical Center

*Chair, Insured Package Advisory Committee
National Health Care Institute, The Netherlands*

**Topic: Developments In Value
Frameworks To Inform The Allocation Of
Healthcare Resources**

**1120 -
1150**

Tea Break

**1150 -
1220**

Sharing Session 2:

Valuation Survey of a new region-specific preference-based measure, AP-7D: One of the first PBM internationally developed in East and Southeast Asia

This session presents the valuation survey findings of the AP-7D tool across several Asian countries. The AP-7D, jointly developed by HTAsiaLink and C2H Japan, is a novel preference-based measure used to calculate quality-adjusted life years (QALYs) as well as evaluate health states and has been specifically designed for Asian populations.

Moderator

Dr. Nan Luo

*Associate
Professor
Saw Swee Hock
School of Public
Health*

Panelists

Dr. Yot Teerawattananon

*Secretary General
Health Intervention and Technology Assessment
Program (HITAP)
Ministry of Public Health, Thailand*

Dr. Morii Yasuhiro

*Center for Outcomes Research and Economic
Evaluation for Health (C2H), Japan*

Prof. Jeonghoon Ahn*Ewha Womans University, Korea***Dr. Nan Luo***Associate Professor**Saw Swee Hock School of Public Health***1220 -
1320****Closing Ceremony****1320 -
1430****Lunch****1430 -
1530****Member and Council Meeting****1530 -
1630****Board Meeting**
