

HONG KONG SANATORIUM & HOSPITAL SCIENTIFIC SEMINAR

'Sparing' carbapenems; rational or not?

In today's resistance-driven clinical landscape, antimicrobial selection demands more than reflexive prescribing. When should we rely on trusted broad-spectrum agents and when is it time to escalate to novel BL/BLI combinations?

Join us for a focused discussion on navigating these decisions with precision, stewardship, and patient-centered insight.

CHAIRMAN

Dr. YUNG Wai Hung, Raymond

Honorary Consultant in Microbiology

SPEAKER

Professor David Martin LIVERMORE

Emeritus Professor

Medical Microbiology, Expertise in Antibiotic Resistance

Norwich Medical School

University of East Anglia, UK

As a world-renowned expert and consultant on antibiotic resistance, Prof. Livermore has spoken widely at many international conferences, such as the European Congress of Clinical Microbiology and Infectious Disease. To date, Prof. Livermore has authored, co-authored, and published over 500 papers, including landmark clinical studies, especially in the antimicrobial resistance space.
